TABLE OF CONTENTS

<u>CHAPTER 1: MICROSOFT POWERPOINT 2007 – GETTING STARTED</u>	1
<u>What is PowerPoint 2007?</u>	2
<u>Slides and Presentations</u>	2
<i><u>What is slide?</u></i>	2
<i><u>What is presentation?</u></i>	2
<u>Starting PowerPoint 2007</u>	2
<i><u>To start PowerPoint 2007 using the Start Menu</u></i>	2
<u>Starting a Presentation from a Template</u>	2
<i><u>To use an installed template</u></i>	3
<i><u>To use an online template</u></i>	3
<u>PowerPoint 2007 Screen Elements</u>	3
<u>The Ribbon</u>	4
<u>Saving a Presentation</u>	5
<i><u>To save a presentation (first time)</u></i>	5
<i><u>To save a backup copy (subsequent times)</u></i>	5
<u>Saving in a different File Format</u>	6
<i><u>To know PowerPoint Save As Formats</u></i>	6
<u>Closing a Presentation</u>	9
<i><u>To close a presentation</u></i>	9
<u>Exiting PowerPoint</u>	9
<i><u>To exit PowerPoint</u></i>	9
<u>CHAPTER 2: STARTING TO EXPLORE POWERPOINT 2007</u>	10
<u>Opening an Existing Presentation</u>	11
<i><u>To open a recently used PowerPoint presentation</u></i>	11
<i><u>To increase/decrease the list of Recent Documents</u></i>	11
<i><u>To open an existing presentation</u></i>	11
<i><u>The Open options</u></i>	11
<i><u>To search a presentation file</u></i>	12
<u>Managing Files Within PowerPoint</u>	13
<i><u>To create a new folder to save file (Windows Vista)</u></i>	13
<i><u>To create a new folder to save file (Windows XP)</u></i>	13
<i><u>To set a password for a file</u></i>	13
<i><u>To copy a presentation</u></i>	14
<i><u>To delete a presentation</u></i>	14
<i><u>To rename a presentation</u></i>	14
<u>Managing PowerPoint Slides</u>	14
<i><u>To select PowerPoint slide(s)</u></i>	14
<i><u>To delete PowerPoint slide(s)</u></i>	14
<u>Selection Techniques</u>	14
<i><u>To select characters using the mouse</u></i>	15
<i><u>To select characters using the keyboard</u></i>	15
<i><u>To select a word</u></i>	15
<i><u>To select a paragraph</u></i>	15
<i><u>To select the text on the entire slide</u></i>	15
<u>Deleting Text</u>	15
<i><u>To delete a character</u></i>	15
<i><u>To delete a word</u></i>	15

<u>To delete a sentence</u>	15
<u>To delete a paragraph</u>	15
<u>To delete a block of text</u>	16
<u>The Status Bar</u>	16
<u>The View Icons</u>	16
<u>To know the different views in PowerPoint</u>	16
<u>To change the slides to the intended view</u>	16
<u>The Zoom</u>	16
<u>To zoom a presentation using the Zoom dialog box</u>	17
<u>Optional Display Elements</u>	17
<u>To enable the ruler</u>	18
<u>To disable the vertical ruler</u>	18
<u>To turn the gridlines on or off</u>	18
<u>To set grid and guide options</u>	18
<u>Color/Grayscale/ Pure Black and White</u>	19
<u>To change the presentation slides color</u>	19
<u>PowerPoint Help System</u>	19
<u>To look up information in the Help system</u>	19
<u>PowerPoint Support Resources</u>	20
<u>To access the support resources</u>	20
<u>CHAPTER 3: SIMPLE TEXT SLIDE MANIPULATIONS</u>	22
<u>Creating a New Blank Presentation</u>	23
<u>To create a new presentation once PowerPoint is 'up and running'</u>	23
<u>To enter title and subtitle</u>	23
<u>Insert a New Slide</u>	23
<u>To insert a new slide using the keyboard</u>	23
<u>To insert a new slide using the mouse</u>	23
<u>To enter a new line that is not preceded by a bullet point</u>	23
<u>To insert a new slide with different layouts</u>	23
<u>Using Content Placeholders</u>	24
<u>To insert content into a placeholder</u>	25
<u>Demotion and Promotion</u>	25
<u>To demote bullets using the Tab key</u>	25
<u>To promote sub-level bullets using the Tab key</u>	25
<u>Deleting Slide</u>	26
<u>To delete a slide</u>	26
<u>Re-ordering Slide</u>	26
<u>To rearrange slides in Slide Sorter view</u>	26
<u>To rearrange slides in Normal view</u>	26
<u>Undo and Redo</u>	26
<u>To use undo to reverse your last action</u>	27
<u>To use redo to reverse back your undo action</u>	27
<u>To undo or redo a specific number of commands or actions</u>	27
<u>Creating Slide Notes</u>	28
<u>To create notes for a slide</u>	28
<u>CHAPTER 4: CLIPBOARD AND SLIDE MASTER</u>	29
<u>What is Clipboard?</u>	30
<u>Copy</u>	30
<u>To copy text, graphic, or other items to the Clipboard</u>	30

<u>To copy multiple items to the Clipboard</u>	30
<u>To turn on the Office Clipboard task pane</u>	30
<u>To copy text without storing it to the Clipboard</u>	30
Cut	31
<u>To cut selected items from a slide</u>	31
<u>To move text without storing it to the Clipboard</u>	31
Paste	31
<u>To paste data from the Clipboard</u>	31
<u>To paste multiple items from the Clipboard</u>	31
Format Painter	31
<u>To format text using the format painter</u>	31
Copying Slides from Other Presentations	32
<u>To reuse slides from other presentations</u>	32
Slide Masters	33
<u>To view the slide master</u>	33
<u>To include object on every or specific slides</u>	34
<u>To insert or delete a new slide master</u>	34
<u>To insert a new slide layout</u>	34
<u>To insert a placeholder in slide layout</u>	34
Controlling Slide Master Background	35
<u>To hide background objects on a slide</u>	35
<u>To insert background graphic on a slide</u>	35
Slide Header and Footer	36
<u>To insert header and footer on the slides, notes or handouts</u>	36
<u>To insert the date and time on a specific slide</u>	36
<u>To insert the slide number on a specific slide</u>	37
<u>To start number with different number</u>	37
<u>CHAPTER 5: SLIDE LAYOUTS AND THEMES</u>	39
Changing a Slide's Layout	40
<u>To switch a slide to a different layout</u>	40
Applying a Theme	40
<u>To apply a theme from the Gallery</u>	41
<u>To apply a theme from a theme or template file</u>	41
<u>To apply a theme to a new presentation</u>	42
Theme Colors, Fonts, and Effects	42
<u>To use a different color theme</u>	42
<u>To use a different font theme</u>	43
<u>To use a different effect theme</u>	44
Managing Custom Color and Font Themes	44
<u>To create a custom color theme</u>	44
<u>To delete a custom color theme</u>	45
<u>To create a custom font theme</u>	46
<u>To delete a custom color theme</u>	46
<u>CHAPTER 6: FORMATTING TEXT AND TEXT BOXES</u>	47
Formatting Text	48
<u>To change the font used by selected text</u>	48
<u>To change font size</u>	48
<u>To format text as bold</u>	49
<u>To format text as italic</u>	49

<u>To format text with underline</u>	49
<u>To format text with strikethrough</u>	49
<u>To format text with shadow</u>	49
<u>To format text with different character spacing</u>	49
<u>To format text with different case</u>	50
<u>To format text with a color</u>	50
<u>To adjust the text alignment</u>	51
<u>To format text using the Font dialog box</u>	51
<u>To choose the right fonts for your slide</u>	52
<u>To replace font</u>	52
<u>To apply a text outline</u>	52
<u>To apply WordArt Styles</u>	52
<u>To apply the text effects</u>	53
Text Boxes	54
<u>To know the characteristics of a text placeholder</u>	54
<u>To know the characteristics of a manual text box</u>	54
<u>To manually place a text box on a slide</u>	54
<u>To select a text box</u>	54
<u>To resize a text box</u>	55
<u>To resize a text box to the exact size (method 1)</u>	55
<u>To resize a text box to the exact size (method 2)</u>	55
<u>To set a text box exact position on a slide</u>	56
<u>To change a text box vertical alignment</u>	56
<u>To change the text direction in a text box</u>	57
<u>To change a text box AutoFit behaviour</u>	58
<u>To change a text box internal margins</u>	58
<u>To change the number of columns used in a text box</u>	59
<u>CHAPTER 7: FORMATTING PARAGRAPHS</u>	60
<u>Formatting Paragraph</u>	61
<u>Bullets</u>	61
<u>To apply default bullet formatting</u>	61
<u>To apply alternate bullet formatting to a list</u>	61
<u>To change the bullet size and color</u>	62
<u>To apply custom formatted (symbol) bullets</u>	62
<u>To apply picture bullets</u>	63
<u>To apply your own pictures as bullets</u>	64
<u>To remove bullets</u>	64
<u>Numbering</u>	65
<u>To add numbering to a list</u>	65
<u>To change a number size and color</u>	65
<u>To change the numbering start number</u>	66
<u>Alignment</u>	66
<u>To change paragraph alignment</u>	66
<u>Line Spacing</u>	67
<u>To change the line and paragraph spacing</u>	67
<u>Indents</u>	68
<u>To set the paragraph indent</u>	68
<u>CHAPTER 8: CORRECTING AND IMPROVING TEXT</u>	69
<u>Spelling</u>	70

<u>To check an individual word</u>	70
<u>To use the Spelling command</u>	70
<u>To set the Spelling options</u>	71
<u>AutoCorrect</u>	72
<u>To use AutoCorrect command</u>	72
<u>To reserve the automatic changing of text by AutoCorrect</u>	73
<u>To add items to AutoCorrect entry</u>	73
<u>To delete an AutoCorrect entry</u>	73
<u>AutoFormat As You Type</u>	73
<u>To use AutoFormat As You Type command</u>	74
<u>Smart Tags</u>	74
<u>To turn on the Smart tags</u>	74
<u>Finding and Replacing Text</u>	75
<u>To find text</u>	75
<u>To find and replace text</u>	76
<u>Research Material</u>	77
<u>To research a topic</u>	77
<u>Thesaurus</u>	77
<u>To use the Thesaurus</u>	78
<u>Translating Text</u>	78
<u>To translate a topic</u>	78
<u>Changing Text to a Language</u>	79
<u>To mark text as a language</u>	79
<u>CHAPTER 9: CREATING AND FORMATTING TABLES</u>	80
<u>Introducing Tables in PowerPoint</u>	81
<u>Creating Slide that contain Table</u>	81
<u>To create a table with Insert Table dialog box</u>	81
<u>To insert a table from the Table icon</u>	81
<u>To draw a table</u>	82
<u>To add text to a table</u>	82
<u>Selection Techniques within Tables</u>	83
<u>To select a cell</u>	83
<u>To select a row</u>	83
<u>To select a column</u>	83
<u>Table Manipulations</u>	83
<u>To resize the entire table</u>	83
<u>To add or delete rows</u>	83
<u>To add or delete columns</u>	84
<u>To merge the table cells</u>	84
<u>To split the table cells</u>	84
<u>Table Styles</u>	84
<u>To add or remove the table styles</u>	85
<u>To change the table styles options</u>	85
<u>Formatting Tables</u>	86
<u>To change columns width and row height</u>	86
<u>To specify an exact row height or column width</u>	86
<u>To specify the internal margins for cells</u>	86
<u>To apply or change the table border</u>	87
<u>To apply the fill color to cell(s)</u>	88
<u>To fill a picture to a table</u>	89

<u>To apply a shadow to a table</u>	89
<u>CHAPTER 10: DRAWING AND FORMATTING OBJECTS</u>	90
<u>Object</u>	92
<u>The Drawing Tools</u>	92
<u>To draw a shape</u>	92
<u>Selecting and Deleting Objects</u>	93
<u>To select a single object</u>	93
<u>To deselect a selected object</u>	93
<u>To select more than one objects at a time</u>	93
<u>To select all the objects on the slide</u>	93
<u>To delete a single object</u>	93
<u>To delete multiple objects at a time</u>	93
<u>Resizing Objects</u>	93
<u>To resize an object</u>	94
<u>To resize an object to exact percentages</u>	94
<u>To constrain objects when you resize them</u>	95
<u>To resize a line</u>	95
<u>Moving and Copying Objects</u>	95
<u>To move an object within a slide</u>	95
<u>To copy an object within a slide</u>	95
<u>To move an object from one slide to another</u>	95
<u>To copy an object from one slide to another</u>	95
<u>To move or copy object from one presentation to another</u>	95
<u>To move or copy object to another program</u>	95
<u>Aligning or Distributing Objects</u>	96
<u>To align object in relation to the slide</u>	96
<u>To align objects with one another</u>	96
<u>To distribute objects</u>	96
<u>Rotating or Flipping Objects</u>	97
<u>To rotate an object</u>	97
<u>To flip an object</u>	97
<u>Grouping and Un-grouping Objects</u>	97
<u>To group objects</u>	97
<u>To group objects using the pop-up menu</u>	98
<u>To un-group objects</u>	98
<u>To un-group objects using the pop-up menu</u>	98
<u>To regroup objects</u>	98
<u>To regroup objects using the pop-up menu</u>	98
<u>Moving Objects Forwards and Backwards</u>	98
<u>To bring objects forwards</u>	98
<u>To send objects backwards</u>	99
<u>Object Border</u>	99
<u>To change the object border attributes</u>	99
<u>Object Fill</u>	100
<u>To apply a solid fill to an object</u>	100
<u>To apply a one color gradient to an object</u>	100
<u>To apply a custom gradient to an object</u>	101
<u>To apply a picture or textual to an object</u>	103
<u>To apply a background fills to an object</u>	103
<u>Object Effects</u>	104

<u>To apply the object effects</u>	104
<u>CHAPTER 11: WORKING WITH CLIP ART</u>	105
<u>Clipart</u>	106
<u>To find and insert a clip art</u>	106
<u>To specify which collections to search</u>	106
<u>To narrow the list of collections to search</u>	107
<u>To specify which media types to search</u>	107
<u>Clip Organizer</u>	108
<u>To open and browse the Clip Organizer</u>	108
<u>To use the Clip Organizer to insert clip art</u>	108
<u>To create or delete folder in the Clip Organizer</u>	109
<u>To add clips automatically to the Clip Organizer</u>	109
<u>To add clips manually to the Clip Organizer</u>	110
<u>To insert an image from a scanner</u>	111
<u>Modifying Clip Art</u>	111
<u>To apply a color wash to a clip</u>	112
<u>To deconstruct a clip art</u>	112
<u>To recolor clip individual line or shape</u>	113
<u>CHAPTER 12: CREATING AND FORMATTING CHARTS</u>	114
<u>Understanding Charts</u>	115
<u>Creating Slide that contain Chart</u>	115
<u>To create a chart using a Chart placeholder</u>	115
<u>To create a chart using the Insert Chart icon</u>	115
<u>Chart Data</u>	116
<u>To change the default chart data</u>	116
<u>To edit the chart datasheet (basic)</u>	116
<u>To edit the chart datasheet (advance)</u>	116
<u>Chart Types</u>	117
<u>To change the chart type</u>	118
<u>Chart Titles</u>	118
<u>To give the chart a title</u>	118
<u>To format the chart title</u>	118
<u>Chart Axis</u>	119
<u>To give a chart axis title</u>	119
<u>Chart Legend</u>	120
<u>To resize a legend box</u>	120
<u>To set the chart legend placement</u>	120
<u>To format the chart legend</u>	121
<u>To format the chart legend font</u>	122
<u>Chart Data Labels</u>	122
<u>To set a chart data labels</u>	122
<u>Chart Data Table</u>	123
<u>To display a chart data table</u>	123
<u>Controlling the Axes</u>	124
<u>To format chart axis scales</u>	124
<u>To format chart axis number</u>	125
<u>To format chart axis alignment</u>	126
<u>Chart Gridlines</u>	126
<u>To set a chart gridlines</u>	126

<u>To format chart gridlines scale</u>	126
<u>Chart Styles</u>	126
<u>To apply a different chart styles</u>	126
<u>Chart Area</u>	127
<u>To format a chart area</u>	127
<u>Chart Data Series</u>	127
<u>To format a chart data series</u>	127
<u>Chart Templates</u>	127
<u>To create a chart template</u>	127
<u>To apply a chart template to an existing chart</u>	127
<u>To rename or delete templates</u>	128
<u>CHAPTER 13: WORKING WITH SMARTART DIAGRAMS</u>	129
<u>SmartArt Diagrams</u>	130
<u>To insert a SmartArt diagram</u>	130
<u>Modifying SmartArt</u>	131
<u>To insert shape in a diagram</u>	131
<u>To delete shape in a diagram</u>	132
<u>To add bullets to the diagram</u>	132
<u>To promote and demote diagram text</u>	132
<u>To change the diagrams flow direction</u>	132
<u>To reorder the shapes</u>	132
<u>To reset the diagrams</u>	132
<u>To change to a different diagram layout</u>	132
<u>Formatting SmartArt Diagram</u>	133
<u>To apply a SmartArt style</u>	133
<u>To change a SmartArt color</u>	133
<u>To apply colors and effects to individual shapes</u>	134
<u>To change the individual shapes size manually</u>	134
<u>To change the individual shapes size precisely</u>	134
<u>To resize the entire SmartArt diagram</u>	134
<u>To change the shapes used in the SmartArt diagram</u>	135
<u>To save a SmartArt diagram as a picture</u>	135
<u>CHAPTER 14: THE PICTURES AND WORDART</u>	136
<u>Inserting Pictures</u>	137
<u>To insert a picture from a file</u>	137
<u>To understand the PowerPoint picture file formats</u>	137
<u>Photo Album</u>	138
<u>To create a new photo album</u>	138
<u>To edit a photo album</u>	139
<u>Editing Pictures</u>	140
<u>To add a quick style to a picture</u>	140
<u>To apply a shape to a picture</u>	140
<u>To remove a shape to a picture</u>	140
<u>To apply a border to a picture</u>	140
<u>To remove a border to a picture</u>	141
<u>To add an effect to a picture</u>	141
<u>To compress a picture</u>	141
<u>To change a picture brightness</u>	142
<u>To change a picture contrast</u>	143

<u>To recolor a picture</u>	143
<u>To set a transparent background</u>	143
<u>To crop a picture</u>	144
<u>To crop a picture precisely</u>	144
<u>To restore a cropped picture</u>	145
<u>To rotate a picture/object</u>	145
<u>WordArt</u>	145
<u>To insert WordArt text</u>	145
<u>To edit WordArt text</u>	145
<u>To reformat the existing WordArt text</u>	146
<u>To apply a fill to WordArt text</u>	146
<u>To apply an outline to WordArt text</u>	147
<u>To apply an effect to WordArt text</u>	147
<u>To change WordArt text direction</u>	147
<u>To rotate WordArt text</u>	148
<u>CHAPTER 15: SOUND EFFECTS AND MOVIES (VIDEOS)</u>	149
<u>Sound Effects</u>	150
<u>Inserting Sound Files</u>	150
<u>To choose a sound from the Clip Organizer</u>	150
<u>To choose a sound from a file</u>	151
<u>Sound Play Settings</u>	151
<u>To play sound on a mouse click or mouseover</u>	151
<u>To turn the automatic play on or off for a clip</u>	152
<u>To delay or repeat a sound</u>	153
<u>To control the sound clip start point</u>	154
<u>To control the sound clip stop point</u>	155
<u>To set the sound volume</u>	156
<u>To set sound options from the ribbon</u>	156
<u>To assign a sound to an object</u>	156
<u>CD Audio Soundtrack</u>	157
<u>To place a CD soundtrack icon on a slide</u>	157
<u>To edit the CD track start and end times</u>	158
<u>Recording Sounds</u>	158
<u>To record a sound</u>	158
<u>Movie (Video)</u>	159
<u>Inserting Movie Files</u>	159
<u>To insert a movie from the Clip Organizer</u>	159
<u>To make Clip Organizer content available offline</u>	160
<u>To insert a movie from a file</u>	160
<u>Setting Movie Options</u>	160
<u>To play movie on mouse click or mouse over</u>	160
<u>To control the movie volume</u>	161
<u>To understand the Custom Animation task pane symbol</u>	162
<u>To control when the movie will play</u>	162
<u>To set the start and stop points for a movie clip</u>	163
<u>To resize the video clip window</u>	164
<u>CHAPTER 16: SLIDE TRANSITIONS AND ANIMATION EFFECTS</u>	165
<u>Slide Transitions</u>	166
<u>To assign an automatic transition to a slide</u>	166

<u>To add transition to a slide</u>	166
<u>Animations Effects</u>	167
<u>To apply the animation preset</u>	168
<u>To apply a custom animation effects</u>	168
<u>To change to a different animation effects</u>	171
<u>To remove animation from a specific object</u>	171
<u>To assign a multiple animation effects to an object</u>	171
<u>To re-order animation effects</u>	171
<u>To add special animation options for text</u>	171
<u>To set timing for a custom animation effect</u>	172
<u>To assign a sound with animations</u>	173
<u>Motion Paths</u>	174
<u>To use a preset motion path</u>	174
<u>To edit a motion path</u>	176
<u>To draw a custom motion path for an object</u>	176
<u>CHAPTER 17: SETTING UP AND RUNNING A SLIDE SHOW</u>	177
<u>Setting Up a Slide Show</u>	178
<u>To set up show</u>	178
<u>Hidden Slides</u>	179
<u>To hide slides in a slide show</u>	179
<u>To display a hidden slide during a slide show</u>	179
<u>Custom Slide Show</u>	179
<u>To create a custom slide show</u>	179
<u>To edit a custom slide show</u>	180
<u>To show a custom slide show</u>	181
<u>Self-Running Presentation</u>	181
<u>To set up a self-running slide show</u>	181
<u>Saving a Presentation as a Slide Show</u>	182
<u>To save a presentation as a PowerPoint Show</u>	182
<u>Slide Show Navigations</u>	182
<u>To start a slide show</u>	183
<u>To move to the next slide</u>	183
<u>To move to a previous slide</u>	183
<u>To go to a specific slide</u>	183
<u>To return to the first slide</u>	184
<u>To turn the screen to black</u>	184
<u>To end a slide show</u>	184
<u>Slide Show Annotations</u>	184
<u>To change the pointer options</u>	184
<u>To add annotations during the slide show</u>	184
<u>To save annotations and turn them on and off</u>	185
<u>Slide Show Timings</u>	185
<u>To set timings for a slide show</u>	185
<u>To see the timing for each slide</u>	186
<u>To edit the timing</u>	186
<u>Slide Show Narrations</u>	186
<u>To record a narration</u>	186
<u>To pause or resume a narration</u>	187
<u>Slide Show Shortcuts</u>	187
<u>To display the slide show shortcuts</u>	187

<u>CHAPTER 18: PRINTING AND FINALIZING PRESENTATIONS</u>	188
<u>Print Preview</u>	189
<i><u>To preview the presentation</u></i>	189
<i><u>To change the preview options</u></i>	189
<u>Setting Print Options</u>	190
<i><u>To change the print options</u></i>	190
<u>Printing Slides</u>	190
<i><u>To print acetates</u></i>	191
<i><u>To print delegate handouts</u></i>	191
<i><u>To print speaker notes</u></i>	191
<i><u>To print a presentation outlines</u></i>	191
<u>Print Setup</u>	191
<i><u>To set the slide format</u></i>	191
<u>Print Dialog Box</u>	192
<i><u>To set the print options</u></i>	192
<i><u>To print Acetates</u></i>	193
<u>Printing Handouts and Handouts Master</u>	193
<i><u>To print handouts</u></i>	193
<i><u>To view the Handout Master</u></i>	194
<i><u>To set the number of slides per page</u></i>	194
<i><u>To use and reposition the placeholders</u></i>	194
<i><u>To set the handout orientation</u></i>	195
<i><u>To set the slide orientation</u></i>	195
<u>Speaker Notes and Printing Notes Pages</u>	196
<i><u>To type the speaker notes</u></i>	196
<i><u>To change the notes page layout</u></i>	197
<i><u>To add a header and footer to notes pages</u></i>	197
<i><u>To print speaker notes</u></i>	198
<u>Printing Outlines</u>	198
<i><u>To print a presentation outlines</u></i>	198
<u>Cancel Printing</u>	199
<i><u>To cancel the printing of a presentation</u></i>	199
<u>Exporting Notes and Slides to Word</u>	199
<i><u>To create handouts in Word</u></i>	199
<u>Saving Outline Text</u>	200
<i><u>To save a presentation as an outline</u></i>	200
<i><u>To send a outline to Word</u></i>	201
<u>Creating a PDF Document</u>	201
<i><u>To save a presentation as a PDF document</u></i>	201
<u>Creating an XPS Document</u>	202
<i><u>To save a presentation as an XPS document</u></i>	202
<u>CHAPTER 19: PREPARING A PRESENTATION FOR MASS DISTRIBUTION</u>	203
<u>File Properties</u>	204
<i><u>To change a file's properties</u></i>	204
<i><u>To display a properties dialog box for the file</u></i>	204
<u>Document Inspector</u>	205
<i><u>To use the document inspector</u></i>	205
<u>Encrypting Files</u>	207
<i><u>To encrypt a presentation</u></i>	207

<u>To remove encryption from your presentation</u>	207
<u>Digital Signatures</u>	207
<u>To create a digital signature</u>	208
<u>To view or remove a digital signature</u>	210
<u>Finalizing Presentations</u>	210
<u>To mark a presentation as final</u>	210
<u>Compatibility Checker</u>	211
<u>To check presentation compatibility</u>	211
<u>Packaging a Presentation</u>	211
<u>To package a presentation on CD</u>	211
<u>To package a presentation to a folder</u>	212
<u>CHAPTER 20: CREATING A WEB PRESENTATION</u>	214
<u>Action Buttons</u>	215
<u>To insert an action button</u>	215
<u>To test an action button</u>	215
<u>To create an action button to go to a specific slide</u>	215
<u>Hyperlinks to Objects or External Objects</u>	216
<u>To add a hyperlink to a slide object</u>	216
<u>To add a sound to a hyperlink</u>	217
<u>To create a hyperlink to another presentation</u>	217
